Beautiful Urban Plot in Casarabonela

This stunning plot of land is located in the very scenic part of the village of Casarabonela. The plot is made up of 513 square meters of urban land and offers some truly fantastic views out over the village and surrounding countryside. Water and electric are at the site and just need connection. An example of the type of property that could be constructed on this site is shown opposite. Permission could be sought for a 260 square meter property which would feature a lounge, kitchen, double garage, four double bedrooms and three bathrooms. Country Sun could help with not only the permission but also manage the entire build from beginning to end. We estimate the cost for construction to be somewhere in the region of 200,000 euros. For this you would have a brand new property in a stunning location, designed to your exact specifications. This is a great investment and viewing is highly recommended.
